Although no instructions have been received by the Section as to what types of records need to be maintained within the Sivision relative to control of funds allotted to logistics office, "If for OR and OF classes of Squipment and Supplies, the United of the Sudget and Fiscal Section and Onief of Logistics Tection have agreed tout the Sixial Continue to keep Albotment Control Records on Finds allotted to the Sixialon on all projects and the Cogistics Tection will maintain a simple memorandum record on the Mauthority to withdraw Equipment and/or Supplies" on all approved projects. This is the same procedure as was recommended by the Technical Accounting Staff, Office of the Comptroller, and as also recommended in previous report submitted on the Comptroller, and as also recommended in previous report submitted on the Comptroller, and as also recommended in Previous report submitted on the Comptroller, and as also recommended in Previous report submitted on the Comptroller, and as also recommended in Previous report submitted on the Comptroller, and as also recommended in Previous report submitted on the Comptroller.

### 3. DETERMINE.

25X1A

s. So actual record of work loads was available in the Section. The following estimate, however, was made by Thief of the Section as to the apportionment of time of his personnel during a month.

## Hours per month Type of Work load 25X9 Preparing reports Preparing field sub-allotments Ladger postings Approval of funds Cables prepared "ables and dispatches routed through "ection for concurrence conferences and meetings Audiet reparation Having of proposed regulatory issuances Agent duty status reports prepared and reviewed Maintainance of Taxi fund Preparing of travel vouchers Preparing travel orders Preparing Fequest for advances "reparing and reviewing claims Waintenance of Time & Attendance Reports Distributing pay checks Costs to welve heriew of projects for Administrative Plans Preparation of Reimburement Youchers Maintenance of ponding file on termination dates of contracts and maintenance of correspondence central on finance watters Miscelleneous (review of vouchers, 'D' runs, liminon, estimating obligations, training, etc.) Total

26 Yerseas Administrative 'xpense accounts

25X1C10b

The "hief of the Section stated that he believes this time element can be reduced by more coordination between elements of the Wa and TV" on Sudget (alle and the substantiating data requested.

- c. The MA Division's procedure for mandling "field | tation | ecountings is considered effective and is believed to be worthy of comment. Spen receipt of the Field Station accounting by the Sivisian, it is forwarded to the where the alletment numbers charged are checked. If it is found that a wrong allotment has been charged, a change is made and the correct allotment mamber le cited. a copy is pulled for the obligating document, and the original is forwarded to the Area Desk of the branch concerned, for operational review. Should the Area leak question any item, a dispetch to the field is prepared and a copy of the dispatch is forwarded with the accounting to Finance Division. We attempt is made in the Civision to sudit these accountings since this function is recognised by the division as being a responsibility of Finance division.
- d. Personnel of the Section estimate that approximately los of the travel orders written required amendments. They stated that most of these were made necessary by change in dates of travel and changes in itinerary. The Division uses a "hequest for Trevel Orders" form which is initiated in the Branch and forwarded to the Sudget and Fiscal fection where the (revel reer is written (see Tab A). In previous reports submitted on other Area Tivisions, a recommendation has been mede that subject to the completion of an overall study of the 100/9, the function of preparing travel orders be withdrawn from all Area Divisions and Staff elements of the Sal and essigned to the fentral Processing Franch. It is believed that a form designed along such lines as this one could be used. "Ince the preparation of travel

# **SECRET**

Security Information

25X1A

order smendments is time consuming, all elements of the ivision should be informed that it is their responsibility to give all essential and accurate information on the Fequest for Travel Orders Form before forwarding same to the Travel Clerk. The

25X1A

should periodically inform the bief of the Administrative fitses of these elements of the Mvision requesting an unversated number of Travel order Amendments to other with the reasons for same. Administrative action should then be taken with a view toward decreasing the number of Amendments requested.

e. It was found that there were instances where staff amployees were inspected that the hief of the Administrative "taff has taken action to have the staff amployees are properly charged.

25X1A

- Is we found in all other (res livisions previously examined, the his livision is neving difficulty in estimating and liquidating those obligations arising from the bequest for "hipment (Sore to. 30-1). Insusportation livision of logistics office, if a states that it is completing a schedule whereby chipment charges may be estimated and the lechnical accounting 'taff of the 'omptreller's 'ffice is working on a procedure whereby the expenditures on the 'obligations. To date, however, naither the schedule for satisating obligations for a method for identifying the liquidations of these obligations have reached the area livision level and there are therefore no accurate records of U3 womey in the fudget and 'iscal 'ections of the various area livisions.
- g. As enalysis of the work load of the Section disclosed that one mundred and sixty (100) hours per month was taking expended by this Division performing the function of preparing travel vouchers. The should discontinue this function, and the employees should be encouraged to utilize entral Processing Franch in accordance with Agency Motice persyraph ].

25X1A

- on the function of preparing travel orders. the service track as study should be made to determine whether the centralization of this function in the central Processing French can be effected and thereby reduce the number of people within the Agency performing this function.
- 25X1A

  i. Tertain actions on cables and dispatches to the field pertaining to purely technical finance matters have been assigned to inance division by dated house 1900. These functions have been enumerated in reports previously succeited on other area divisions. The Tection estimates that ho hours per wenth is consumed by giving condurrance on all cables and dispatches routed through the division. Tost of this time can be attributed to reviewing and concurring on actions arising from those functions specified in the above mentioned.

25X1A

**2**5X1A

25X1A

25X1A

25X1A

To the conceivable that much of this work load can be eliminated by giving releasing authority to Finance days sion on purely technical finance matters which do not involve operations. Discussion on this point with individuals in the faction indicated that apposition to this Suggestion was based on the following points:

- (1) Come dispetches and cables were not now thoroughly checked for factual content by personnel in linence division before releasing them to the Division for concurrence.
  - Note: This would appear to be a criticism of personnel who perform cortain duties rather than a criticism of the propead procedure.
- (2) The feeling exists that any dispatch or caule wherein inside the division takes any action of a discall numera mature should be coordinated with the free division prior to its release.
- '3' in all cases the "dvision should be thoroughly cognizent of all dispatches and cables going to the field.

25X1A

Attempts were made to stress the point that the suggestion did not include any items of an operational nature but only those of a purely technical finance nature as specified in the action on which is at present a responsibility of Finance Sivision. From a purely of jective standpoint, it is believed that, in the interest of speed and efficiency, consideration should be given to the suggestion of giving Finance Sivision releasing subscrity on all purely technical finance dispatches and caples.

25X1A

- J. The frief of the term that that, although there were a number of items on the July is accounting form which he could not identify, it was a considerable improvement over previous ones substituted to him by Finance Styleion. Work on this project is and should be continued by the Sechnical Accounting Staff of the improvement of the Office.
- 25X1A

vision are not, in all cases, indicating the proper all number to be charged. This is an educational matter and the of the MEA division has initiated action to correct this by publishing the Administrative findular fil, subject: fiscal Accounting for Station Expenses, dated 20 July 1953 (fee lat 4).

25X1A

- 1. An employee suggestion has been submitted by the Finence fficer of the division as follows:
- 25X1A6a tering training at The obligation is usually 3.00 or less, however, the cost of processing individual orders must

## **SECRET**

Security Information

Security Information

cost the Agency \$50.00 per order. This remedy could be applied to local travel (mileage claims) for local use of personal owned vehicles. Trucessing of '2 to '10 claims must cost the Agency close to \$100.00 (this includes the orders as well as the voucher)."

Although there are certain parts of this suggestion which from a control standmoint do not appear to be feasable, it is believed that it has sufficient merit to warrant a study to determine if the costs of processing small travel claims can be reduced. After discussing this problem with representatives of linance livision, it is believed that a facility can be established in linance livision whereby cash payments may be immediately made on an over-the-counter basis. These tayments would be for any travel under \$25.00 in which no per dism is involved, telephone calls and other miscellaneous expenses (exclusive of entertainment). This would involve the drafting of a simplified combined Trovel Irder and Voucher and a procedure whereby the claim for reinturement would be submitted to linence Avision properly signed by the appropriate approving Ifficer of the free division concerned.

Advance is made up for less than file. Into is a costly procedure and should be made the subject of study to determine whether or not all are necessary or if some less costly procedure can not be devised for Advances less than file.00.

## 3. STATITUM.

25X1A

25X1A

25X1A

25X1A

- a. Transmationally toe s appropriately !ocated as a bection of the Administrative Staff of the Sivision. The Thief of the Administrative "teff is giving adequate support to the hief of the It is imperative, however, that the thief of the Administrative Staff continue to bring to the attention of all elements of the Division that all allotments are made to the Chief of the Division, that no documents obligating these funds be released by the Livision without the certification of the Chief. or his designee that funds are aveilable in the allotment charged, and that the primary missions of is to prepare annual budgets, to seaure the thisf of the division that funds allotted to him will not be over-obligated, and Finance activities of an ideinistrative itsiff support neture.
  - b. Fost of the deficiencies found in a previous study of this Section have been corrected and notable progress has been made since the previous Management Office report, dated 2 July 1953, was rendered.
- c. Many of the inadequacies which now prevent the meinteining of eccurate financial records by the WE division are 25X1A caused by deficiencies ever which the Area division has no control. These include a method of liquidating obligations arising from Vequest for Thipment (Yorm No. 36-h) and better identification of items

Finance Mylsion to impreve this mituation.

appearing on the monthly for accounting machine run substited to the Division by Finance Division. As previously stated in this report, the July TAM accounting machine run shows a decided improvement over those substited in prior wonths but is not yet to a place where it can be said that it is adequate. The Technical Accounting Staff, office of the Comptroller is working with both the area divisions and

#### L. S. C. WAS WILLIAMS.

#### B. It is recommended that:

17) Instructions be given all tous Area Divisions relative to procedures, types of records to be maintained on the property sutherisation central procedure of GB and G9 funds.

are applied to those sections of the Administrative Staff of the various area Sivisions performing budget, fiscal, and finance functions. ince the terminology "Sudget and Siscal Officers" is used in regulations (19) it is recommended that in the interest of standardization, the terminology be used throughout the area Sivisions of the 17 when referring to these sections.

25X1A

25X1A

- (3) The Personnel section of the "deinistrative Staff be required to continue its check periodically of the "dvision payrall to determine whether or not the field staff employees are properly charged.
- (b) I study be made to determine the feasability of charging all transportation charges exclusive of those necessary for the movement of personal affects against one allotsent.
- paring Travel 'outhers for staff amployees, and the employees be encoursed to utilize (entral Tracessing Scance in accordance with Agency Setice paragraph 3.
- (1) A study should be nade to determine whether the functions of preparing travel orders can be withdrawn from all rese divisions and Staff elements of the U/\* and assigned to the outral recessing branch. It is believed that this centralization would reduce not only the number of associaents to travel orders now being prepared and thereby reduce the number of personnel necessary to perform this function but also the number of electric typewriters now needed in the 11/\* element.
- (?) Those division elements responsible for initiating a request for travel orders be instructed to be as exact and specific as possible
